CONCERT HALL – Cultural use 2018

The Concert Hall is a magnificent modern hall, with perfect acoustics, suitable for various types of performance for a seated audience.

On a technical level a great deal is possible here. For instance, an acoustic shell can be placed on stage, for music performances that are not electronically amplified. In this case, the hall capacity is slightly less, because the orchestra is positioned deeper in the hall.

The Concert Hall has a fully equipped fly tower. Our technical team can take care of all the sound and lighting. We will quote a price for this according to the wishes of the orchestra or company involved. Basic technical services and reception staff are included in the standard hall rental fee.

The Concert Hall's spacious foyers are ideal for a stylish reception, either before or after the performance. There is plenty of room for all the guests. The use of the Foyers is not included in the standard hall rental fee.

Capacity

The capacity of the Concert Hall is between 1,132 and 1,289 places. Depending on the configuration of the hall, chairs can be installed in the orchestra zone (orchestra pit) or space can be made for a technical island. In the rental agreement, a standard clause specifies that 25 complimentary seats will be reserved for the Concertgebouw.

Price

The fee for rental of the Concert Hall is 6.500 € (VAT excl.).

This fee covers one show on one day. For more performances an additional fee will be quoted.
